Volume 26, Number 8, April 30, 1980. Published by Information Services, University of B.C., 2075 Westbrook Mall, Vancouver, B.C. V6T 1W5, 228-3131. Jim Banham and Judie Steeves, editors. ISSN 0497-2929.

## Society elects 7 from UBC

Seven UBC faculty members are among 60 distinguished Canadian humanists and scientists who will be inducted June 1 into the Royal Society of Canada, this country's most prestigious academic organization.

New fellows of the society's Academy II for the humanities and social sciences are Prof. Stephen Milne of the Department of Political Science, Prof. A. Milton Moore of the economics department and Prof. E.G. Pulleyblank of the Asian studies department.

New fellows of Academy III for the sciences are Prof. David Boyd of the Department of Mathematics, Prof. John C. Brown of the Department of Physiology, Prof. Walter Hardy of the physics department and Prof. William G. Wellington, a member of the Department of Plant Science and the Institute of Animal Resource Ecology.

## Admission bid by Iranians turned back

A bid by the five stranded Iranian architecture students from the University of Idaho to be admitted to the University of British Columbia was rejected Tuesday by the admissions committee of the UBC Senate.

The five are Mashalah Jalalian, Shahab Kasmal-Tehran, Bizhan Basirat, Mohammad Ghaffari and Marjan Sassanfar.

Prof. Robert Smith, chairman of the UBC Senate admissions committee, said that in denying the appeal, the committee was unwilling to consider the applicants as a bloc.

The five Iranians entered Canada on April 6 as part of a group of 100 students from the University of Idaho, on an architectural field trip. While they were in Vancouver, President Carter announced changes in the policy toward Iranian nationals with respect to entry to the United States, and the five were refused re-admittance.

Fifteen grade 10 students from Hazelton in B.C.'s northern interior were guests of the University April 16-20 as part of UBC's developing accessibility project designed to improve communication with provincial high schools. The Hazelton students visited the campus Museum of Anthropology, above, toured several UBC academic departments, swam at UBC's Aquatic Centre and saw a play at a theatre on Granville Island during their stay in Vancouver. For more details on the UBC accessibility project, see story on page 2.

## Board meets in Prince George

UBC will be much in evidence in Prince George early in May when the University stages a three-day mini open house and the Board of Governors holds its regular May meeting in the central interior city.

The mini open house from May 1 to 3 in the Pine Centre shopping mall has been arranged by the UBC Alumni Association. UBC personnel from the Faculties of Forestry, Science and Medicine, the Library and the UBC Press will man displays, some of which will involve visitor participation.

The visit to Prince George by UBC's Board of Governors on May 5 will involve a morning visit and luncheon at New Caledonia Community College, to be followed by a formal Board meeting at the Inn of the North from 2 to 5:30 p.m.

All UBC graduates in the Prince George area have been invited to a 6:30 p.m. reception at the Inn of the North, which will be followed by a 7:30 p.m. banquet. Special guests at the dinner will be 1979-80 student scholarship and athletic award winners and their families.

## UBC gets strike notice

The Association of University and College Employees (AUCE), Local 1, served 72-hour strike notice on the University Tuesday, following rejection by the union membership of a University contract proposal.

A union spokesperson said an overflow crowd of about 700 attended a noon-hour meeting in IRC 2 on Tuesday to discuss the UBC offer, which was rejected by a 90-per-cent vote on a show of hands. A motion to vote via secret ballot on the offer was defeated.

The union represents more than 1,200 clerical and non-professional library workers at UBC.

The University offer, placed before the AUCE negotiating committee on Monday, called for a one-year contract from April 1, 1980, with a general wage increase of 10 per cent. In addition, there would be incremental increases totalling .88 per cent, an extended health benefit payment equalling .05 per cent, and a once-only \$100 signing bonus for each AUCE member. The union has asked for 15 per cent in a one-year contract.

The UBC offer would have given AUCE salaries ranging from \$1,032 a month to \$1,795. (See table on page 3.)

The union spokesperson said the strike against selected areas of the University could begin as early as 3:40 p.m. Friday. She said the membership had left it up to the strike committee to decide when the strike would start and against what buildings it would be directed.

## Details on Asian fund awaited

The details of a \$500,000 fund for UBC's Asian studies program will be announced in Vancouver May 6 when the city is visited by Japanese Prime Minister Masayoshi Ohira, who left Japan today (April 30) for a week-long visit to North America and Mexico.

The announcement that Prime Minister Ohira would offer the fund to UBC over a three-year period was made on the eve of his departure on a tour that will take him to the United States, Mexico and Canada for talks aimed at improving bilateral economic and political relations.

Although details on the use of the fund remain to be finalized, President Douglas T. Kenny said that the gift was "most generous and underlines the reputation which UBC enjoys as a Pacific Rim university."

"We welcome this initiative by the government of Japan, and coming as it does with completion of our Asian Centre in view, indicates the high level of interest among our Pacific neighbors in the overall UBC Asian studies program," the president said.

A detailed announcement regarding the UBC fund will be made at a dinner in Vancouver's Hyatt Regency Hotel on May 6. It will be jointly hosted by Prime Minister Ohira and Canadian Prime Minister Pierre Trudeau.

The Japanese prime minister will leave Vancouver for Tokyo on May 7.

Work on Stage II of UBC's Asian Centre adjacent to the Nitobe Memorial Garden in the northwest section of the campus is expected to be complete in October.

The centre will house UBC's Department of Asian Studies, the Institute for Asian Research and the University's 250,000-volume Asian Studies Library, currently housed in the Main Library.

## UBC's new parkade opens for business May 15

UBC's first multi-storey parkade capable of handling 1,150 cars will open for business May 15.

Until that date, faculty and staff employed in the Health Sciences Centre, including the Woodward Library and the Library Processing Centre, will have priority in purchasing stickers entitling them to use the building.

Any rental spaces remaining on and after May 15 will be sold on a first-come, first-served basis to other faculty and staff members.

The annual cost of renting a parking spot in the new parkade will be \$128, payable in two instalments of \$64 each. Traffic and security director Al Hutchinson said parkade rates are significantly below those charged for similar space in downtown Vancouver lots and similar to those charged for covered parking at other Vancouver hospitals.

UBC's vice-president for administrative services, Chuck Connaghan, told *UBC Reports* that rising demand for faculty and staff parking on the north-east sector of the campus will probably mean construction of a second parkade in that area in the near future with a similar parking-fee structure.

Holders of parking stickers for the Health Sciences Centre parkade will get something of a financial break in 1980-81. Their stickers will be valid from May 15 to Aug. 31, 1981.

Those who buy space in the parkade will get a special sticker for their car as well as a specially-punched "key" card that will automatically lift a barrier when inserted in a machine at the entrance. The parkade stickers will also be valid for other campus faculty and staff lots.

Visitors using the parkade for casual parking will get a ticket from a "spitter" machine at the entrance and will pay when they leave. Casual parking rates are 75 cents for the first two hours and 25 cents for each additional hour up to a maximum of \$2.00.

Hutchinson stated that the present temporary parking areas in the southeast section of campus will revert back to grass areas or roadways. The status of the existing surface parking is under review by the Traffic and Parking Committee, he said.

The parkade exit will be manned from 7 a.m. to 9 p.m. throughout the week. Overnight parking will also be available between 9 p.m. and 7 a.m. for a fee of 75 cents, which users will deposit in ticket machines at the parkade entrance.

## Senate approves statement on exam availability

Senate at its April 23 meeting approved a Calendar statement that gives students the right of access to marked final examination papers, to take effect with the 1980-81 school year.

The statement replaces item six of the current "Rules governing formal examinations" on page 16 of the 1980-81 Calendar, and reads as follows:

"A final examination becomes the property of the University and must remain in the possession of the University until destroyed or otherwise disposed of. No later than one month from receipt of session results a student may make written application to the Department Head, Director or Dean, who will make every effort to arrange for the student to view her or his marked final examination paper(s) with the course instructor or designate. The purpose of this exercise is purely pedagogic and distinct from the Review of Assigned Standing."

Senate also approved the restructuring of the Faculty of Education into university departments, in line with one of the recommendations of the President's Review Committee Report on the faculty which was completed a year ago.

Following is a list of the new departments, as presented to Senate by the faculty:

1. A department comprising the present Departments of Educational Psychology and Special Education, to be called The Department of Educational Psychology and Special Education.
2. A department comprising the present Departments of Educational Foundations and Social Studies Education, to be called The Department of Social and Educational Studies.
3. A department comprising the present Departments of English Education, Reading Education and Modern Languages Education, to be called The Department of Language Education.
4. A department comprising the present Departments of Mathematics Education and Science Education, to be called The Department of Mathematics and Science Education.
5. A department comprising the present Departments of Art Education and Music Education, to be called The Department of Visual and Performing Arts in Education.
6. A department comprising the Centre for the Study of Curriculum and Instruction, and the present Departments of Communications Librarianship, Early Childhood Education, Home Economics Education, Business Education and Industrial Education, to be called The

Department of Curriculum and Instructional Studies.

7. A department comprising the present Department of Counselling Psychology, to be called The Department of Counselling Psychology.
- In the same motion, Senate approved the faculty's proposal that:

"The School of Physical Education and Recreation will function in part, and under arrangements still to be worked out, as a department of the Faculty and the present Department of Physical Education (Teacher Preparation) will be amalgamated with it.

"For the time being, the existing Departments of Adult Education, Higher Education and Educational Administration will be affiliated in a unit that will have quasi-departmental status within the Faculty.

"The above names may be subject to revision when regular, as opposed to Acting, Heads are appointed."

In the Faculty of Commerce and Business Administration the words "Dean's Honour List" will be placed on a student's transcript if an average of 80 per cent or better has been achieved in the program of an academic year of at least 12 units in the first year or 15 units in second, third or fourth years.

In addition, the words "with Honours" will be put on the transcript, degree certificate and degree parchment of students graduating with the B. Com. degree if the student's average over the 36.0 units of the third and fourth years is 80 per cent or better.

This recommendation by the commerce and business administration faculty was approved by Senate at its April meeting.

Also approved by Senate was the Calendar entry and first-year course listing for a revised four-year program leading to the Bachelor of Recreation Education degree.

In its recommendation for the changes, which include the deletion of three units of physical education courses and the addition of 4.5 units of "leisure studies" courses, the School of Physical Education and Recreation said the new curriculum is intended to provide a professional education for recreation students, with the emphasis on theory and research.

## Coal unit bids to be opened May 8

A new laboratory centre for coal and mineral processing — the only such facility in Canada — will be built at UBC this year.

Construction bids on the project will be opened May 8, and an end-of-

year completion date is anticipated for the three-storey, 20,000-square-foot structure.

The new laboratory will meet the needs of teaching and research in coal preparation and mineral processing,

and will also be available for cooperative research with the Canadian mineral industry.

Prof. George Poling, head of the Department of Mining and Mineral Processing Engineering at UBC, said coal is becoming an increasingly important source of energy and hydrocarbon chemicals, and that traditional uses of western Canadian coal for making coke are also expanding rapidly.

"Preparation plants are necessary since coal cannot be utilized directly as it comes out of a mine," Dr. Poling said. "Impurities such as mineral matter and water must be removed to utilize our coal resources efficiently and with a minimal environmental impact."

Dr. Poling said his department graduates about 10 engineers a year, and he would like to see this number rise to at least 20, possibly 30.

"Establishment of this new centre will give our students a third option, that of coal preparation engineering," he said, "to go with mining engineering and mineral process engineering, and it will provide better facilities for students in mineral processing."

Dr. Poling said candidates for a Bachelor of Applied Science degree in mining and mineral processing spend three years in the department, after a year of science and a year of general engineering.

"Coal preparation and mineral processing are both crucially important to B.C. and to Canada," Dr. Poling said, "and the jobs are there for the graduates. Coal and mineral processing engineers from UBC will serve the mining industry and society better because of this new facility."

The new centre will be located just off the southwest corner of the Forward Building for metallurgy and mining on the campus.

## Access project launched

UBC's accessibility project, launched last year to improve communication between the University and B.C. high schools, is now well launched, according to Dick Shirran, director of the campus Student Counselling and Resources Centre.

In addition to an expanded information program, the accessibility project includes a pilot project to be carried out in five B.C. high schools with the aim of determining why some students elect to enrol at university, while others do not.

The project began last summer when counsellors, principals and parents from the five pilot-project schools met UBC officials on campus for a workshop to discuss the factors restricting accessibility to higher education and steps that could be taken to limit their influence.

As a result of the discussions, it was decided to give priority to awarding \$750 bursaries to seven students from the pilot-project schools, improving the quality and amount of information about UBC in all high schools, including more information about employment and careers arising from university training, and the initiation of visits to the University for grade 10 students from each of the pilot-project schools.

Over the winter, UBC's admissions guide, published by the Registrar's Office, was upgraded and a new publication entitled "Info UBC" has

been prepared for distribution to B.C. high schools and colleges.

The latter publication, which will be available to potential students in counselling offices, includes a copy of the UBC Calendar as well as a description in non-technical language of study opportunities in each of the University's faculties, departments, schools and institutes.

The Info UBC is contained in a large looseleaf binder, which will be updated from time to time with new material about UBC.

Also available to high schools and colleges are a general film about university life, entitled "A University is...", produced in the past year by the Department of Information Services, and videotapes on specific programs, including forestry, agriculture and mining engineering.

Now in the planning stage is a conference for all high school and regional college counsellors, which will be held sometime in the coming year, Mr. Shirran said.

The five-year accessibility program will cost an estimated \$159,000. In addition, the University will add \$250,000 over the next five years to UBC bursary funds, bringing to \$450,000 the amount available annually to aid low-income students or to supplement financial awards made by the B.C. Student Assistance Program of the provincial government.

## Health Service to move

The Student Health Service will move to more modern quarters on the main floor of the new Walter Koerner Acute Care Unit during the first two weeks in June.

Present facilities in the west wing of the Wesbrook Building will be vacated by the health service May 31 although emergency services will be provided there until the new facility is opened June 16.

Student Health Service provides outpatient health services for students, including any problem a family doctor would deal with. This includes counselling; and help with such problems as headaches and injuries. In addition to medical and nursing care and investigation of any health problems arising in students, the health service also provides various immunization procedures.

The new quarters will allow more privacy for students in the reception area, noted Nursing Supervisor Kathleen Boyle, because there is more space available.

Furnishings at the student waiting area in the new unit are being pro-

vided by the Alumni Association.

The University Health Service Hospital will also move from the Wesbrook Building to the new acute care unit, but not at the same time as the health service.

The 26-bed health service hospital will share the Family Practice Unit beds when the acute care hospital opens.

Facilities in the Wesbrook Building vacated by the University Health Service Hospital and the Student Health Service will be taken over by the Departments of Microbiology and Medical Genetics, and the medical microbiology division.

### Roads close

UBC's Traffic and Security Department announced late Tuesday the closure of 16th Avenue from East Mall to the 16th Avenue Extension; and the 16th Avenue Extension from Marine Drive to West Mall for the month of May.

Traffic and security director Al Hutchinson said the provincial highways department informed the department late Tuesday of the closure, which takes effect today (April 30) until approximately May 30.

The closure is part of a construction program to straighten and improve 16th Avenue and Marine Drive.

## New film ready for screening

A 20-minute, 16mm film, "A University Is...", produced by UBC Information Services, is now available for free screenings to groups, schools, professional organizations and other public audiences.

The film, which was shot on the UBC campus over the past year, explains the traditional role of a university and shows how the functions of teaching, research and service are carried out by professors and students.

"The film's message, not its locale, is what is important," said Brant Ducey, director of Information Services. "We feel its approach is universal and that it could be used by other universities. We hope that it will prove popular with off-campus audiences such as clubs, libraries, professional groups, alumni and schools, particularly at the high-school level."

The film is available on campus from Information Services and from the Space and Audio-Visual Services library. Arrangements are being made for off-campus distribution through a film distribution agency.

### FACULTY

Continued from page 1

Society recognizes excellence in the field of study of each of those honored.

Ms. Joan Staniszki, assistant professor of Home Economics, was inducted in March into the Royal Canadian Academy of the Arts at a ceremony in Ottawa marking the 100th anniversary of the academy.

The academy confers membership on people already distinguished and well known in the field of art, architecture and design. Its charter encourages good design and "promotion and support of education leading to the production of beautiful and excellent work."

Ms. Staniszki is widely known as a weaver and creator of tapestries which have been commissioned by business firms, churches, embassies and hospitals in Canada and abroad. She has exhibited her work in major displays in Canada, the United States and Europe.

Paul Jeyakumar, who last week took up a post as accountant for the UBC Press after working for several years in the Bookstore, was a silver medal winner in the 1978-79 exams of the Canadian Certified General Accountants' Association.

## New 'logo' now available

A new visual identification mark or "logo" has been approved by UBC Administration for use in employment advertising and brochures and booklets directed to the public.

The logo is made up of the letters UBC and the traditional UBC crest surrounded by bold lines in the outline of a shield.

Use of the letters UBC ensures clear and instant recognition by viewers, while the crest maintains established University tradition.

Visual symbols should be memorable, recognizable and appropriate, and should serve to give a familiar continuity to printed materials destined for the general public.

The symbol does not preclude the traditional uses of the University's crest. Rather it offers another option for visual identification, particularly when printed material may be competing with other materials for the reader's attention.

Faculties or departments interested in using the logo can obtain the necessary artwork from Gary Taylor of Copy and Duplicating.

Information Services can provide guidelines and suggestions for the use of the symbol.

Those faculties or departments wishing to use the symbol in display advertising should have their advertising placed through the Department of Employee Relations.

## UBC's offer to AUCE

The table below sets out the monthly pay rates proposed by the University in its negotiations with the Association of University and College Employees. The University also proposed a once-only, \$100 signing bonus for each member of the union over and above the figures shown below.

April 1, 1980 - Monthly (10%)

Pay Grade	Step 1 Start	Step 2 1 year	Step 3 2 years	Step 4 3 years	Step 5 4 years	Step 6 5 years
	\$ 1032	\$ 1056	\$ 1079	\$ 1103	\$ 1126	\$ 1150
I Intermediate	1079	1103	1126	1150	1174	1197
II	1126	1150	1174	1197	1221	1244
II Intermediate	1174	1197	1221	1244	1267	1291
III	1244	1267	1291	1315	1339	1362
III Intermediate	1291	1315	1339	1362	1385	1409
IV	1362	1385	1409	1432	1459	1484
V	1459	1484	1510	1536	1562	1587
VI	1562	1587	1614	1640	1665	1692
VII	1665	1692	1717	1744	1769	1795

Dr. Heath B. "Pete" Chamberlain, editor of UBC's prestigious journal *Pacific Affairs*, holds commemorative issue of the publication dedicated to Prof. William L. Holland, right, who served as its editor for almost a quarter of a century. *Pacific Affairs* first made its appearance in the late 1920s and was published by the Institute of Pacific Relations until the early 1960s, when Prof. Holland came to UBC to head the Department of Asian Studies, bringing the journal with him.

### Friday set as cutoff date

A tip of the hat to those members of the faculty, staff and student body who have so promptly and fully completed and returned the readership survey of *UBC Reports* distributed earlier this month.

It's still not too late for your completed questionnaire to be included in the survey, which is designed to help the editors produce a newspaper that meets the needs of all members of the University community.

We've set Friday (May 2) as the cutoff date for receiving ques-

tionnaires. So if yours has been buried in a pile of paper somewhere on your desk, dig it out today, complete it (it will only take a couple of minutes) and pop it in campus mail.

We promise you that a full report on the results of the survey will appear in a future edition of *UBC Reports* when we've had a chance to analyse the returns.

The questionnaire was sent to all members of the support staff and a selected list of faculty members and students.

# UBC Calendar

## UBC CALENDAR DEADLINES

Events in the week of:

May 11 to May 17 Deadline is 5 p.m. May 1

May 18 to May 24 Deadline is 5 p.m. May 8

Send notices to Information Services, 6328 Memorial Road (Old Administration Building), Campus. For further information call 228-3131.

## MONDAY, MAY 5

**12 noon CANCER RESEARCH SEMINAR.** Dr. J.W. Hopewell, Oxford University, on *Dose Fractionation Studies in a Large Animal Model: A Biological Basis for Re-appraisal of the Nominal Standard Dose in Radio Therapy*. Lecture Theatre, B.C. Cancer Research Centre, 601 West 10th Avenue, Vancouver.

**12:30 p.m. RELIGIOUS SOCIETY OF FRIENDS (Quakers) Meeting for Worship** (UBC campus worship group). Room 1024, Scarfe Building. For more information, contact R. Crosby, 228-5735.

**4:00 p.m. BIOCHEMICAL DISCUSSION GROUP SEMINAR.** Dr. Cort Saunders, Biochemistry and Biophysics, Oregon State University, on *Poly A Metabolism in S. cerevisiae*. Lecture Hall 3, Woodward Instructional Resources Centre.

## TUESDAY, MAY 6

**1:30 p.m. VIDEO PREVIEWS.** The Centre for Human Settlements Audio-Visual Viewing Library screens *The Club of Rome*, a new program from the collection, followed by requests from the catalogue. Faculty are invited to preview the collection and tour the new viewing facilities. Room 313, Library Processing Building.

**2:30 p.m. CHEMISTRY SEMINAR.** Prof. Orville L. Chapman, Chemistry, University of California, Los Angeles, on *A Model for Pheromone Perception in Certain Lepidoptera*. Room 124, Chemistry Building.

**3:30 p.m. PHARMACOLOGY SEMINAR.** Dr. Seymour Heisler, Pharmacology, Faculty of Medicine, Laval University, on *Stimulus-Enzyme-Secretion-Coupling in Exocrine Pancreas: Role of Protein Carboxyl Methylation*. Room 114, Block C, Medical Sciences Building.

## WEDNESDAY, MAY 7

**9:30 a.m. RETURN TO LEARNING.** A one-day orientation program offered by the Women's Resources Centre, Centre for Continuing Education, for women thinking of re-entering UBC next fall. The day begins at the Women's Resources Centre downtown, 1144 Robson St., then continues on UBC campus. Co-sponsored by the Women Students' Office. \$3. Information: 228-2181, local 218.

**10:00 a.m. SPECIAL SEMINAR.** Dr. Charles A. Laszlo, Division of Health Systems, UBC, on *Appropriate Technology for Health Care*. Room 1210, Civil and Mechanical Engineering Building.

**12:30 p.m. JEAN-PAUL SARTRE MEMORIAL PARTY PLANNING MEETING.** Lounge, Graduate Centre. Would-be participants may call 224-3722.

**8:00 p.m.** The Centre for Continuing Education presents a two-evening dialogue and discussion with Dr. David Bohm, Theoretical Physics, University of London; Dr. Michael Ovenden, Astronomy, UBC; and Dr. David Shainberg, psychiatrist, author, and former Dean of Psychoanalytic Medicine, Post-Graduate Centre for Mental Health, New York City, on *Can Human Consciousness Be Transformed?* Lecture Hall 2, Woodward Instructional Resources Centre. \$5 for both sessions (today and tomorrow); \$3 for single session. Information: 228-2181, local 261.

## THURSDAY, MAY 8

**9:00 a.m. MEDICAL GRAND ROUNDS.** Dr. Maurice Victor, Neurology, Case-Western Reserve University, Cleveland, Ohio, on *Disorders of Memory and Their Anatomical Basis*. "B" Lecture Hall, Vancouver General Hospital.

**3:00 p.m. SPECIAL SEMINAR.** Dr. Michael Toll, Memorial University of Newfoundland, on *Some Recent Biomedical Engineering Activities at Memorial University*. Room 1210, Civil and Mechanical Engineering Building.

**3:30 p.m. MICROBIOLOGY SEMINAR.** Vikram Misra, Microbiology, University of Saskatchewan, on *Cell-cycle Dependent Viruses*. Lecture Hall 3, Woodward Instructional Resources Centre.

**8:00 p.m.** The Centre for Continuing Education presents a dialogue and discussion with Dr. David Bohm, Theoretical Physics, University of London; Dr. Michael Ovenden, Astronomy, UBC; and Dr. David Shainberg, psychiatrist, author, and former Dean of Psychoanalytic Medicine, Post-Graduate Center for Mental Health, New York City, on *Can Human Consciousness Be Transformed?* See Wednesday listing for ticket prices. Lecture Hall 2, Woodward Instructional Resources Centre.

Photo by Peter Menyaz

More than 500 persons involved in water sports and training programs in B.C. are participating in the 1980 B.C. Aquatic Workshop, which opened Saturday (April 26) in UBC's Aquatic Centre and continues until May 11. The 1980 workshop offers 34 courses and clinics on water safety, canoeing and small craft safety, pool operation, lifesaving and water res-

cue, SCUBA diving and underwater hockey. Nestor Korchinsky of UBC's School of Physical Education and Recreation is chairman of the 1980 organizing committee of the workshop, which is sponsored by the provincial government's recreation and fitness branch.

## FRIDAY, MAY 9

**12:30 p.m. ANTHROPOLOGY/SOCIOLOGY SEMINAR.** Dr. Merrilee H. Salmon, University of Arizona, on *Explanation, Thick Description, and Laws*. Room 207, Anthropology & Sociology Building.

**1:00 p.m. MEDICAL GENETICS SEMINAR.** Dr. Michael Vincer on *Canavans Disease*. 4th floor Conference Room, Health Centre for Children, Vancouver General Hospital.

## INTERNATIONAL HOUSE

Reception and orientation programs are just getting underway and people are needed who can spare a little time to meet new students arriving from overseas; provide temporary accommodation; and man the reception booth at the International Airport for a brief period of time from Aug. 13 to Sept. 12. Call 228-5021 for further information.

## ALPINE GARDEN DAYS

The Alpine Garden, a component of UBC's Botanical Garden, will hold three open days May 8, 9, and 11, when curator Jim McPhail and members of the Friends of the Garden will be on hand to give tours and answer questions about this unique 2½-acre development, which will be at the peak of its blooming season. Tour hours are 1 to 4 p.m. The Alpine Garden is located adjacent to the west side of Thunderbird Stadium and parking is available in the lot north of Stadium Road on the south side of Thunderbird Stadium.

## 1980 SUMMER SPORT PROGRAMS

An expanded program of sports activities will be offered in the summer of 1980 by the School of Physical Education and Recreation. For further information on any of the activities listed below, call 228-3688.

**BASKETBALL** — for grade 10, 11 and 12 girls. May 19-June 30. \$40.

**FENCING** — for girls and boys aged 12-18. Session for 12-to-15-year-olds July 7-11; for 16-18-year-olds July 14-18. \$40.

**GYMNASTICS** — for boys and girls aged 6 and up. June 30-July 11. \$50.

**ICE HOCKEY** — for males aged 7 to adult. Day school July 21-Aug. 29 for ages 7-13. \$75; Evening school Aug. 18-29 for ages 11-16. \$45; Resident school July 5-Aug. 23 for ages 8-17. \$195; Adult program July 8-Aug. 28. \$65; Coaches program July 7-Aug. 27. \$55.

**SOCCER** — for boys and girls aged 7-17. June 23-Aug. 1. \$25.

**SPORT CAMP** — for boys and girls 7-14. Two-week sessions from June 30-Aug. 8. \$40.

**VOLLEYBALL** — for boys and girls 10-14. July 14-16. \$35. All the above activities will be held at the Thunderbird Winter Sports Centre, the Osborne Centre and adjacent playing fields on Thunderbird Boulevard.

## NITOBE GARDEN HOURS

Until Thanksgiving: Open daily from 10:00 a.m. to half an hour before sunset.

## WOODWARD SNACK BAR

The snack bar in the Woodward Instructional Resources Centre will be closed from June 2 through June 13 for renovations and maintenance.

## COMPUTER LANGUAGE WORKSHOPS

The Computer Science Programs division of the Centre for Continuing Education will sponsor a number of intensive, one-week workshops in May and June for individuals competent in one computer language who wish to acquire another. For information on any of the workshops listed below, call 228-2181, locals 276 or 278.

**Programming in PASCAL** — two sections May 26-30 from 9 a.m. to 4 p.m. and May 15-July 17 from 7 to 9 p.m. \$140 plus \$15 lab fee.

**So You Want to Know COBOL** — June 9-13 from 9 a.m. to 4 p.m. \$130 plus \$25 lab fee.

**PL 1 as a Second Language** — June 16-20. 9 a.m. to 4 p.m. \$130 plus \$20 lab fee.

**SNOBOL as a Text-Oriented Language** — June 23-27. \$130 plus \$20 lab fee.
