UBC will have to carry out a major reorganization in the 1986-87 fiscal year. President David Strangway said the University would be able to avoid major reorganizations as the result of an increase in the provincial operating grant of 10 per cent to base budgets of the universities. The additional funding has come from the provincial government’s Fund for Excellence in Education, announced by Premier Bill Bennett in February.

The three-year grant, in addition to augmenting UBC’s operating budget, will provide the University with additional funds in biotechnology, international business and Asian studies, and provide seed money for computer systems and forestry research. Dr. Strangway said he was “very pleased with the way in which post-secondary education minister Russ Fraser and the provincial government had responded to the needs of the University.

The first of these is the need to increase the on-going financial base of the University’s budget, which meets our day-to-day operating costs and ensures our ability to retain a degree of vitality and flexibility to provide a University able to participate in the social and economic well-being of the province.

The second is a financial base for the further development and strengthening of selected areas of excellence in teaching and research.

"Finally," the president said, "the government has provided allocations for merit salary increases and for faculty renewal, which means that UBC will be in a position to retain outstanding teachers and researchers and to compete internationally for new faculty appointments.

Dr. Strangway observed that the amount of the increase for faculty salaries, which meets our day-to-day budget, which meets our day-to-day

UBC’s 1986-87 budget picture

The University of B.C.’s 1986 Summer Field School in Archaeology, which began on Monday (July 7) and continues until Aug. 15, is a very much a public affair.

The 21 students enrolled for the credit course in the Department of Anthropology and Sociology are working under the gaze of the public at a site on Spanish Banks, just below the UBC campus opposite the 5600 block on Northwest Marine Drive.

The Archaeological Society of B.C. is staging daily public tours of the site, believed to be a seasonal camping place used by coastal Indians some time in the period 400 B.C. and 400 A.D. It was first described by the late Charles Borden, the UBC professor who came to be known as the father of B.C. archaeology.

The tours enable the public to see how archaeologists excavate a site, and are getting hands-on experience in archaeological field work.

Three-week-long, the students are at the site from July 10, 1986, from 9 a.m. to 4 p.m. Monday through Friday.

Members of the Archaeological Society will be at the site every day to conduct tours between 9:30 a.m. and 3:30 p.m. Both the field school and the Archaeological Society have received financial support from the provincial government through the Heritage Trust for the summer program.

Negotiations focus on salary issues

Forthcoming negotiations between the Administration and the UBC Faculty Association will centre on an association brief which calls for estimated increases in salaries and benefits totaling more than 16 per cent of the University’s salary base.

The Administration’s negotiating team and the negotiating team for the Faculty Association will be headed by Prof. Dennis Pavich of the Faculty of Law, a former president of the Faculty association, and Prof. Daniel Birch, UBC’s vice-president academic, said a meeting of department heads and deans of schools was planned during the summer to raise some of the issues involved in discussions.

"We have agreed that a future negotiation will deal with the financial base for the further development and strengthening of selected areas of excellence in teaching and research.

The second is the need to increase the on-going financial base of the University’s budget, which meets our day-to-day operating costs and ensures our ability to retain a degree of vitality and flexibility to provide a University able to participate in the social and economic well-being of the province.

The third is the need to increase the on-going financial base of the University’s budget, which meets our day-to-day operating costs and ensures our ability to retain a degree of vitality and flexibility to provide a University able to participate in the social and economic well-being of the province.

UBC makes the team! Seven UBC medical students and a UBC firefighter were members of the Dragon Boat team that placed first in the Vancouver Dragon Boat races held at Expo last month and went on to represent Canada in the Hong Kong Dragon Boat Festival International Races 1986. The team, captained by Hugh Fisher, a UBC student and 1984 Olympic gold medalist in the Kayak K2 event, placed second in Hong Kong. Team members included UBC medical students Peter Tonsell, Steve Sotherland, Bob McGraw, Mike Rether, Jamie Johnston, Howard Joe and UEL firefighter Bill Cowie.

Archaeologists in action

The University of B.C.’s 1986 Summer Field School in Archaeology, which began on Monday (July 7) and continues until Aug. 15, is a very much a public affair.

The 21 students enrolled for the credit course in the Department of Anthropology and Sociology are working under the gaze of the public at a site on Spanish Banks, just below the UBC campus opposite the 5600 block on Northwest Marine Drive.

The Archaeological Society of B.C. is staging daily public tours of the site, believed to be a seasonal camping place used by coastal Indians some time in the period 400 B.C. and 400 A.D. The tours enable the public to see how archaeologists excavate a site, and are getting hands-on experience in archaeological field work.

Three-week-long, the students are at the site from July 10, 1986, from 9 a.m. to 4 p.m. Monday through Friday.

Members of the Archaeological Society will be at the site every day to conduct tours between 9:30 a.m. and 3:30 p.m. Both the field school and the Archaeological Society have received financial support from the provincial government through the Heritage Trust for the summer program.

Group tours can be booked in advance by calling Kitty Bermick at 673-5658 or Pam Adory at 430-8327.

Sexual harassment policies reviewed

A four-member ad hoc committee on sexual harassment has been established by President David Strangway.

The committee will advise on the preparation of a policy on sexual harassment, including defining and establishing procedures for dealing with complaints about sexual harassment.

It will advise on the steps necessary to implement procedures and policies, including consultations with other interested groups on campus.

The committee will review sexual harassment policies from other Canadian universities and consider a selection of relevant literature. Members of the University community are invited to submit their ideas, and in general in touch with committee members for further information.

The committee members are Prof. A. Jean Elder, History (228-9183); Prof. A. J. McLean, associate vice-president (228-6330); Prof. C. Lynn Smith, Law (228-2177); and Dr. Nadine Wilson, Physiology (228-3421).

Traffic rerouted

Traffic flow in the area behind the Acute Care Unit of the Health Sciences Centre Hospital has been modified slightly to accommodate construction work under way on the UBC Biomedical Research Centre.

East Mall is now a two-way street north of the hospital parkade, allowing motorists to turn either left or right upon exiting the parking area.

The short road from East Mall to Health Sciences Mall, between the parkade and the Library, at a point before the construction, has become a two-way road.

Traffic signs in the area clearly mark the new route.

Norman Spector: Some campus views

Premier Bennett's former deputy minister Dr. Mike Apsey, a UBC student fellow, a UBC's Board of Governors June 10 on the recommendation of UBC President President.

The controversy appointment of a three-year, part-time term to begin Sept. 1 of this year or next. Dr. Spector would have a unique exhibit of paintings by Jack Shadbolt on display at the Museum of Anthropology. Dr. Spector also has a Ph.D. in political science and public policy from Yale University in 1962. His salary will not come out of UBC's Faculty of Forestry.

“While Dr. Spector is a controversial figure, the Department of Political Science is easier to work with than in other institutions. He's one of the best funds available for us at UBC. The presence on campus can be made.

Our faculty already has a strong executive-in-residence program. Experts from the Department of Political Science can contribute to the teaching program, particularly in courses dealing with Canadian and B.C. government.

Dean Robert Will Faculty of Arts

Killam prizes announced

UBC plans to recognize outstanding students and faculty through a new program of $20,000 Killam Research Prizes. These prizes, awarded annually, will be funded with income from an endowment received by the University in 1965 and 1966 from the estate of the late Mrs. 1zak Walton Killam.

UBC was one of five Canadian universities and institutions which received a share of the Killam fortune. Mrs. Killam demonstrated her own financial acumen by vastly increasing the Killam fortune in the decade between her husband's death and her own in 1965.

Mrs. Killam bequeathed additional funds to the Canada Council, and also made bequests to Dalhousie University, the Montreal Neurological Institute and the Universities of Alberta and B.C.

Following his death, the federal government released in 1965 $50 million of the $200 million estate. The money was used, in part, to fund the establishment of the Canada Council.

Technological anxiety will be with us indefinitely unless we pay more attention to human reactions and needs.
**UBC hosts vehicle design competition**

UBC plays host July 11-18 to the Innovative Vehicle Design Competition, an exciting international competition organized by UBC to bring vehicle design and future transporation into the spotlight. The event will focus on the vehicles, the school, and the team of volunteers from the UBC engineering school. It is the first international event of its kind ever held.

**Competition rules:**
- **The vehicles must be able to carry two people and travel on existing roadways.** They must also have at least three wheels, storage space for three shopping bags, a length of 100 kilometres and a speed of 15 kilometres per hour.
- **Competing in the contest will be teams from UBC, California State University at Fullerton, Western Washington University, Manikato State University, Switzerland's Institute of Technology, Japan, and the University of Minnesota.**

**Expo special events:**
- A team of volunteers developed the idea for Expo 86 for ideas about designing a competition winner.
- Contest judges are Dr. Gordon Campbell, director general of RBC and Motor Vehicle Safety at Transport Canada; Ted Robertson, director of Transportation Research Association of Canada; Gill Halliday, director, North American Design, Ford Motor Company; Dr. Ghazi Karim, a professor of mechanical engineering at the University of Calgary; Kazuo Mokomiya, manager of theToyota Motor Corporation; Dr. Morohoshi of Toyota Motor Corporation; and Franklin Walter, president of the Society of Automotive Engineers.

**More information:**
- The competition winner will be announced at an awards banquet on July 18.

---

**Hard work pays off for UBC physicists**

Two UBC undergraduates were among the top 10, and four were among the top 25 in this year's International Mathematics Olympiad, an annual contest for high school students from around the world that requires students to design and construct vehicles for the competition, which was organized by UBC's Department of Physics. The contest is open to students from UBC, California State University at Fullerton, Western Washington University, Manikato State University, Switzerland's Institute of Technology, Japan, and the University of Minnesota. The competition winner will be announced at an awards banquet on July 18.

**Innovative Vehicle Design Competition will be tested and displayed next week.**

---

**Researcher produces guide to Canada's legal records**

Dr. D.Lloyd Guth, an associate professor in UBC's Faculty of Law, has received a $82,000 grant from the Social Sciences and Humanities Research Council to produce a comprehensive guide identifying all existing local, provincial, and national legal records in Canada. When completed, it will be the first document of its kind produced anywhere in the world. Guth, who has completed a legal history of the University of California, is currently working on the project.

---

**Mini-documentary wins CCAE award**

A television mini-documentary produced by UBC's Community Relations Office was selected as Best Audio/Visual Package in the Canadian Council for Higher Education's 1986 awards program. The production recognizes outstanding achievement in communications by information, public affairs, and media relations officers, and development and alumni departments in Canadian universities and colleges.

---

**Task force on school liaison established**

President David Strangway is establishing a task force to explore UBC's links to primary and secondary schools. The task force will be composed of members of UBC's undergraduate student body, including the number and mix of international students in undergraduate programs:
- Review policies on admissions, financial aid, and academic services
- Explore the impact of global events on university
- Evaluate the role of students, including international students, in student affairs and the role of academic programs
- Consider ways to enhance UBC's community and industrial liaison through such programs as the Selden Society

---

**Current events and news**

- Two B.C. high school students are among five students selected to represent Canada at the 17th International Physics Olympiad in London, England, July 13 to 20.
- Bryan Feir, a third-year law student, is among the top 10. He is also a past member of the Canadian Association of Physicists.
- Dr. Lloyd Guth, an associate professor in UBC's Faculty of Law, has received a $82,000 grant from the Social Sciences and Humanities Research Council to produce a comprehensive guide identifying all existing local, provincial, and national legal records in Canada.
- UBC's community relations office was selected as Best Audio/Visual Package in the Canadian Council for Higher Education's 1986 awards program.
- A task force to explore UBC's links to primary and secondary schools is being established.
- A mini-documentary produced by UBC's Community Relations Office was selected as Best Audio/Visual Package in the Canadian Council for Higher Education's 1986 awards program.
- Dr. Lloyd Guth was chosen as a top 10 Canadian in the International Mathematics Olympiad.
**TOURS**

- **FREE GUIDED WALKING TOURS** of the campus are offered weekdays at 10 a.m., 1 p.m., and 2:30 p.m. by UBC’s Community Relations Office. This is a beautiful spot to spend a summer day. You can explore the forest trails on your own, or take a guided tour with a professional forestor. For information and directions, call 451-9148.

- **ARCHEOLOGICAL TOURS.** Public tours of a UBC archeological dig at Spanish Banks are offered from 10 a.m. to 3 p.m. and 3:30 p.m. until Aug. 15. The site is believed to have been in use between 12,000 years ago and used by coastal Indians between 400 B.C. and 400 A.D. For details, call 873-5658 or 450-8327.

- **UBC’s 5,157-hectare RESEARCH FOREST,** located in Maple Ridge, is a beautiful spot to spend a summer day. You can explore the forest trails on your own, or take a guided tour with a professional forestor. For information and directions, call 451-9148.

- **ATTRACTIONS & ENTERTAINMENT**
  - **UBC’S MUSEUM OF ANTHROPOLOGY** houses one of the most impressive collections of Northwest Coast Indian artifacts in the world. The museum sponsors special exhibitions, programs and events throughout the year. Currently on display is the archeological site of the Coastal Indian village, Bishar. For further information, call 228-6500.
  - **Minerals, fossils, even an 80-million-year-old Londesborough dragon skeleton** are on display at UBC’s GEOLOGY MUSEUM located in the foyer of the Geological Sciences Building. Impressively large rocks and crystals are on sale at the Collector’s Shop. Open weekdays from 8:30 a.m. to 5 p.m. Call 228-5009.
