Extra Number

Soccer Starts Next Saturday

The Varsity first soccer team will do its stuff on Saturday, October 4th, against Vancouver City, which is considered one of the strongest First Division teams this year, being practically an all-star aggregation of last season's elevens. The Collegians are three weeks late, as the soccer season started a fortnight ago. Much depends on the result of the first game, so that a big delegation of rooters should be on hand to give the blue and gold a send-off in their first game of the year.

Unfortunately, Harry Mosher, Varsity's star goalie, who was picked on the all-Canada team that toured Australia last summer, had his leg broken while there, and is having it re-set in the General Hospital at present. The loss of Mosher is a big blow to the soccer club, for they have been able to find no one as good as Heggie yet. Mosher may be able to play after Christmas, however. Except for this position, the students are going to have a strong eleven this year. Rex Cameron is back on the forward line, and Jock Lundie may also turn out, while Bobby Jackson, whose leg was out of commission last season, is going to try and stage a come-back.

Plans for Initiation Are In Preparation

Plans for initiation are in the hands of a special committee appointed by the Students' Council at their last meeting. The committee is composed of representatives from each of the Faculties, with the University Marshal acting as convenor. The personnel is as follows:

Convenor, Thos. Taylor; Arts, Chas. Motley, H. B. Smith; Science, C. Arnett, H. McLean; Agriculture, L. Murphy; Women, Grace Smith, Dorothy Brown.

No details of the Freshmen's forthcoming ordeal are being given out as yet; but the Omnipotent Nine are working zealously, and wish it to be distinctly understood, for the benefit of any too optimistic green ones, that there will be an initiation, and that within a very short time. The date has not yet been definitely fixed, but next Thursday is looked upon as the most propitious evening upon which to hold the awful ceremony.

Freshmen Attention!

All Freshies may obtain information about athletics from Tommy Wilkinson, Ag. '26, President of Men's Athletics; Pug Greggor, Sc. '25, Captain of Rugby Club; or Ed. Bassett, Sc. '26; Chubb Arnett, Sc. '25, Manager of Soccer team.

For information regarding track see Les Buckley, Agric. '25, President of the Club; or Eddie Mulherne, of Arts '27, the Secretary.

PRESIDENT KLINCK AND A. E. GRAUER WELCOME MEMBERS OF '28

President Klinck Addresses Students and
Dal Grauer Sends Message

DAL GRAUER'S MESSAGE.

It gives me a very real pleasure to welcome back fellow-members of the Alma Mater Society to the tenth session of the University of British Columbia, and I am quite sure all older members will join with me in extending the sincerest of greetings to the incoming class of Arts '28.

To you who are entering this University for the first time I can truly say that our Alma Mater Society is an organization of which all of us are very proud—and an organization that we feel sure none will be more proud of than yourselves. A glance over the past few years will show that this pride of ours is something more than mere sentiment; it has a solid basis in accomplished fact. One has only to mention our campaign to get the building programme at Point Grey started—our victories in athletics—our campaign for playing fields—and, above all, our scholarship men, who are carrying our honours to other universities on this continent and in Europe. Who would not be proud of an Alma Mater with such a record?

Therefore we welcome you, Arts '28, into the Alma Mater Society, in the belief that you will derive great benefit from it. At the same time we consider that it is your honour and your privilege to enjoy this heritage—to do more than that, to become a potent factor in perpetuating it, in adding to its store of achievements.

You will find abundant opportunity awaiting you. There are many perplexing problems facing the student body this year, in the solution of which we need your fullest support.

It will be our last year at Fairview.
(Continued on Page 3)

PRESIDENT KLINCK'S ADDRESS

Dr. L. S. Klinck, President of the University, in his address on Tuesday morning, extended a very hearty welcome to the first-year students on behalf of the Faculty and governing bodies of the U.B.C. He referred to the increased registration figures, and to the exceptional size of the Freshman class, which, he said, was already a class of some distinction, but time would determine whether it was to be the best.

"Why have you come in such large numbers?" asked Dr. Klinck. "Is it because it is popular; because some of your high school associates are here; because your parents wanted you to come; because you consider it will raise your social status and enable you to gain a livelihood without much manual or mental effort? Or is it a desire to gather facts, to gain knowledge, to get wisdom and understanding; to enrich the mind; strengthen the intellect, develop moral fibre, and learn the fine art of living and working happily together? I cannot answer these questions; but doubtless you have put these and other like questions to yourself, and have given your own answer. Upon your answer much depends."

The President made reference to the inevitable confusion and personal inconvenience the class of '28 would experience at first. Many things were new and strange—the surroundings, associates, subjects, time-tables, lecture methods, professors. The University was not a high school, he said; it gave more opportunity for initiative, personal and corporate, and for a wider choice of subjects, and it was
(Continued on Page 3)

Regulations to be Enforced by Council

The following have been prohibited:

1. Loud talking or any noise in the halls.
2. Talking in the library.
3. Writing on the walls.
4. Loitering in the halls.

Gambling in any form will be dealt with by the Students' Council summarily.

In the past there has been a great deal of snatching of the "Ubysssey" from those distributing it. This will not be permitted this year.

All Freshmen are expected to turn out to every general meeting of the student body.

All students eligible are expected to take part in some form of sport, while everyone is expected to turn out to the games and root for Varsity.

Teams Extend Arms to Frosh

Exit the Grad, enter the Freshie! Freshmen may take consolation in the fact that, no matter how they may be pushed about in the corridors, they will be welcomed with open arms by managers and trainers of the various football squads. "The child is father of the man," as Wordsworth would say. This is true with regard to Freshmen and athletics, since the future athletic stars—those who will carry the blue and gold to the fore out at Point Grey—will be recruited from their ranks, not from those of upper years.

All husky and fleet-footed Freshies who are anxious to display their wares on the field of sport must not be backward in coming forward. There are gaps to be filled in the Rugby squads, the soccer elevens are not overcrowded with talent, and the track club is absolutely dependent on the Freshies to fill its ranks. Basketball stars are not so numerous that half-a-dozen or so can graduate without their loss being felt.

In a large Freshman class, with students having different time-tables, it is very hard to become known for some time. There is no better way of obtaining popularity in the Freshman class, as well as making friends in other years, than by turning out for the different athletic teams. Every Freshman should want to be a leader in his class. Get busy right away. The club managers do not want to find a Freshman star at Christmas (for he might graduate then); they want him now. All right, Freshmen, boost your University, boost your class, boost yourself by turning out for the different teams.

Over Thirty Members Needed by Players

There are thirty-five vacancies in the Players' Club membership for this session. Never before have so many losses been sustained by graduation. Consequently those who can act or feel inclined to test their ability should apply for admission to the try-outs. These will be held in a week's time, when the aspiring actors will be surveyed by the Advisory Board, consisting of Professors Wood, Clark and Soward. Candidates are given a short scene from a well-known play, and their gifts of interpretation judged therefrom, after a few days have been spent in preparation. Some interesting one-act plays are under consideration for performance late in November, and a very attractive Spring Play is available should adequate new material be forthcoming. Those desiring to try-out should hand their names in to Professor Wood, Room 5, Commercial Bldg. or to any of the following—Misses Eloise Angell and Alfreda Berkeley, and Messrs. K. Caple, Jim Bennett or T. M. C. Taylor.

Rugby Club holds its First Meeting

The first meeting of the University Rugby Club was held Wednesday noon in the Physics lecture room. There was a large turn-out and the interest displayed augured a very successful year for Varsity's premier sport. Mr. Purdy, president of the club, was in the chair. The minutes having been read and adopted, the question of fielding two rugby teams for the Miller Cup series was discussed. It was decided to play the two teams, and choose a McKechnie Cup team from them later in the season. Representatives were then elected to the V. R. U. and the B. C. R. U. Morgan, Purdy and Greggor being chosen for the former, and Purdy and Domoney for the latter. After a short discussion on equipment for the different teams, the meeting adjourned.

EDITOR FOR THE WEEK

Helen MacGill

WELCOME TO THE FROSH.

We wish to add our voice to the general chorus of welcome to the incoming Class of '28. This special four-page edition of the "Ubyssy" is published mainly for their benefit, and although it bears all the ear-marks of hurried work, it is our hope that it will be of some interest and value to them.

Comprising as it does well over one-third of the student body, the freshman class is the most powerful single factor in the student body, and, as such, will be watched anxiously by the remainder of the University.

To this class, realizing its importance, appreciating its possibilities, and hoping that its University career may be one of ambition fulfilled, and well-deserved attainment, we extend our heartiest greeting to Arts and Agriculture '28.

INTRODUCING THE CAFETERIA.

It might be well, before the present turmoil has subsided into routine, to call the attention of new students, and remind the old, of the unquestionable advantages to be derived from patronizing the Students' Cafeteria.

The support of home industries, though by no means an infallibly justifiable doctrine, is not likely to be an over-emphasized principle in this case. It is not only that the student may procure clean, wholesome, hot meals for, let it be whispered only, an indisputably lower rate can be obtained than at any other sanitarium for the inner individual; the more pointed, more sweepingly unassailable argument is this, that the student who frequents the Cafeteria patronizes his own business venture. That in the final analysis is the outcome of the action. The Cafeteria is organized and financed by the Alma Mater Society, of which every undergraduate is a member, and all accruing profits revert to the Alma Mater funds. Consequently, under the present condition of increasing returns with increasing business, the larger the patronage the greater the annual turnover to student funds and in the way of extra fees, etc., the smaller the exactions from the pocketbooks of individual students. And this fact is not a product of financial rhetoric.

Those independent ones who invariably bring lunches of their own, are yet supplied with an opportunity for giving their custom through the medium of afternoon teas, a phase of the

Cafeteria business which, it is announced, will be catered to even more neatly, attentively, and thoroughly this year.

Class Executives may, perhaps, initiate the most potent support by arranging for a greater number of class events to take place within University precincts. Renovations, improvements and extensions are about to be made with a view to this trade, and everything possible on the part of the Cafeteria will undoubtedly be done to facilitate catering.

The more casual patronage, the purchasing of cigarettes and bars, should also not be overlooked. The habit of buying these indispensable necessities at the "Caf" is of course an involuntarily fixed one amongst students of the upper years, and it is only because of the presence of nearly six hundred undergraduates without information on this subject that reminders need be given. But in the way of custom through lunches, teas and dance suppers, much more can be done by all, individually, and, what is more promising of results, collectively. In all truth, with rare, unblushing egoism, let us patronize ourselves!

So that students may know the exact rate of service at the Cafeteria, a tariff is given below:
 Lunch with regular dessert..... 25c
 Lunch with special dessert..... 35c
 Dinner, including soup and special dessert..... 40c
 Afternoon tea 20c
 (Tea, coffee, or cocoa, with toast, buns or bannocks.)

The "Ubyssy" will, after this week, be published and distributed each Thursday of the term until two weeks before exams.

Literary Corner

WINTER MOOD

Black against steel the elm boughs cut the sky,
 And the clouds fly over. Down the frostier ways
 Of January's ordering, strike the rays
 Of stranger stars and keen enchanted moons,
 Icy and far, the heavens where spaces die
 Hold silence; and we are silent, you and I,
 Who sang the warmth of life through summer noons.

Oh! do not try to reach me with your thought,
 And do not touch me—human love would mar
 The piercing peace with which this night is fraught—
 Your words, unshaken, leave its icy bar—
 Look—and was that the answer I have sought
 That blue sword flash from out the farthest star.

S. M.

NOTICE.

Contributions to this column will be welcomed from any student who has literary tendencies. They should be put in the letter-rack addressed to the Literary Editor, Miss Doris McKay.

The University of British Columbia

INFORMATION TO STUDENTS FEES:-

All cheques must be certified and made payable to "The University of British Columbia."

1. The sessional fees are as follows:

For Full and Conditioned Undergraduates.	
In Arts and Science—	
First Term, payable on or before Oct. 6.....	\$40.00
Second Term, payable on or before Jan. 19..	35.00
	\$ 75.00
In Applied Science—	
First Term, payable on or before Oct. 6.....	\$50.00
Second Term, payable on or before Jan. 19..	50.00
	100.00
In Agriculture—	
First Term, payable on or before Oct. 6.....	\$40.00
Second Term, payable on or before Jan. 19..	35.00
	75.00
In Nursing—	
First Term, payable on or before Oct. 6.....	\$40.00
Second Term, payable on or before Jan. 19..	35.00
	75.00
In Teacher Training Course—	
First Term, payable on or before Oct. 6.....	\$20.00
Second Term, payable on or before Jan. 19..	20.00
	40.00
Alma Mater Fee— Payable on or before Oct. 6.....	7.00
Caution Money— Payable on or before Oct. 6.....	5.00
For Partial Students.	
Fees per "Unit"— Payable on or before Oct. 6.....	7.00
Alma Mater Fee— Payable on or before Oct. 6.....	7.00
Caution Money— Payable on or before Oct. 6.....	5.00
For Graduates.	
Registration and Class Fees— Payable on or before Oct. 13	10.00

After these dates an additional fee of \$2.00 will be exacted of all students in default.

The Alma Mater Fee is a fee exacted from all students for the support of the Alma Mater Society. It was authorized by the Board of Governors at the request of the students themselves.

The Caution Money is a deposit from which deductions will be made to cover breakages, wastage, and use of special materials in laboratories, etc. If the balance to the credit of a student falls below \$1.50, a further deposit of \$5.00 may be required.

2. Immediately after October 18th and February 2nd the Bursar will notify students who have not paid their fees that steps will be taken to ensure their exclusion from classes while the fees remain unpaid.

3. Students registering after October 6th shall pay their fees at the time of registration, failing which they become subject to the provisions of Regulation 2.

4. Special fees are:—	
Regular supplemental examination, per paper.....	\$ 5.00
Special examination, per paper.....	7.50
Graduation	20.00

Supplemental examination fees must be paid two weeks before the examination, special examination fees when application for examination is made, and graduation fees two weeks before Congregation.

The above regulations will be strictly enforced.

F. DALLAS, Bursar.

Learned More Here

He told us after we gave him his 3rd lesson that he learned more here than he believed possible. We taught him how to lead and now he is a finished dancer.

Strictly private lessons, morning, afternoon and evening. Beginners may start anytime.

Class dance every Friday.

Lady and gentleman instructors. Mr. or Mrs. Moore personally when desired.

CLASS NOTES

Arts '25.

Arts '25 will wear gowns this year, it was decided at the first meeting of the session held Wednesday, when the seniors, by a large majority, went on record as favoring the wearing of the academic robes.

The class party this session will be of the draw variety, it was decided, when the question of draws was introduced. There were 56 members in favor of the draw, while 30 opposed it.

Miss Phyllis Gregory was elected Class Marshal of the women of the class.

Professor F. G. C. Wood, Honorary President of Arts '25, spoke a few words to the members of the class, reviewing their past history, and impressing them with their duties and responsibilities as seniors.

Science '28.

Science '28 are off to an early start, having held their class elections last Friday. Those who have been appointed to the executive for the coming year are:

- Wilbur Sparks President
- C. Bailey Vice-President
- D. Bell Sec.-Treas.
- A. Jones Marshall
- J. Legg Athletic Rep.
- J. Hadgkiss Class Reporter

Plans are under way for the organization of an Intermediate Rugby team, 100 per cent. Sc. '28, and for the formation of a Jazz Orchestra. Arts '27, take notice! Freshmen might also be interested to know of other plans which the 70 members of Sc. '28 are formulating—but more of that later.

JUST ARRIVED

A new line of Men's Tuxedo Suits and Separate Tuxedo Coats.

President Klinck's Address
(Continued from Page 1)

his sincere hope that the Freshman class would understand and unreservedly enter into the work and spirit of the University.

Dr. Klinck next pointed out that there were other important considerations not set forth in the calendar under General Information, nor included in courses offered in the curriculum; such considerations as which activity to engage in, which organization to join, which faculty to enter, which courses to take, and so forth. In all these matters, he said, it was the duty and the pleasure of the professors and instructors to give every assistance. They were there to give their best to the students, and in return they expected no less of them.

"While you are making a real contribution in time, effort, and funds in entering upon this course, you are not by any means defraying all the expenses," continued Dr. Klinck. "For you, the State is doing much. With reason, it expects much in return; much as evidenced in the skilled hand, the trained intellect, much in moral stamina and true worth. Here, as in the world at large, each man is his own architect. The University, in its staff, its library and its equipment, brings together the material from a thousand sources; but upon you, individually, rests the responsibility for sorting that material and putting it to wise use.

Again I welcome you to the University; welcome you into this fellowship of men and women, of professors and students, of teachers and taught. I congratulate you upon the opportunity which is yours to become partners with us in creating new standards of excellence, and in maintaining those which have proved to be worthy of the University of British Columbia."

Dal Grauer's Message
(Continued from Page 1)

We shall have to make all those preparations which will allow us to move to Point Grey without a single break in our activities. This alone will be a big task. The upper classes have shown in the last three years that they are worthy of facing such a task—that they have the qualities of co-operation, enthusiasm, and sustained endeavour. I can safely expect this same spirit to be shown by them during the coming year. But what of the Freshmen? Will Arts '28 take its place beside these other years in the giving of its best to the solving of our problems? Will it show that it also has these qualities? We can only judge by what has happened in the past, and the past record of all Freshmen years leads us to expect much of Arts '28. If the upper classes display that same spirit which they have shown in the past three years, and if Arts '28 co-operates with these classes to the very best of its ability, I am sure that the result will be the best year of our history. This statement, I admit, is as yet the expression of a hope. Can we not make it a reality?

Notice!

It is reported in the Evening Sun that a road has been built in Italy "for motorists only." This, of course, is to enable motorists to forge ahead unhindered by slower horse-drawn vehicles, or mere pedestrians. It is a very good idea.

The Students' Council has a plan somewhat similar. The phone in their office is to be for the use of Councilors only. The benefit is obvious. The Students' Council has a hard year's work ahead of it, and this rule (which will be strictly enforced) will

save them from the interruptions of executive members of subsidiary societies and other students who wish to use the phone gratis.

But the Students' Council is naturally kind-hearted, so a phone will be placed in the Lit. and Scientific Department for executive members. For the remaining students, there are still the—pay phones.

We believe

that many readers purchase their Stationery, Dance Programs, Fountain Pens, etc., from us. This patronage is appreciated.

Sharpen Your Pencils and Enter the Reporters Contest

Reporters for The Ubyssy will be chosen again this year by means of "a nose for news" competition, to be held early next week. All would-be journalists are asked to meet in Room Z at noon, Monday, when assignments for the competition will be given by the editor-in-chief and the chief reporter.

The Ubyssy is the only authorized paper of the University of B. C. It is published every Thursday by the Publications Board, and carries all the University news along with humor and editorials pertaining to the University life.

This year there is need of several live reporters who are willing to give a little of their time for the journalistic training they receive. There is no money to be made by the reporting staff of the paper, but the positions offer an opportunity of being in touch with all the university activities.

Freshmen have no need to fear that they will be discriminated against, as it is the policy to train reporters who will be editors as these positions are left vacant each year. Only those who try out in the competition will be given the appointments and the staff will be chosen without fear or favor. No appointments will be made until after each report has been carefully read.

There is need for reporters who are interested in all branches of the University activities including sports, and willing workers will have an ample opportunity of advancing in whatever line they are most efficient. Co-eds are needed to take care of the women's activities, so that the women of the university who are interested will be welcomed.

Full instructions will be given at the meeting Monday noon in Room Z.

NEW APPOINTMENTS TO STAFF.

With the new term several additions to the Staff have been made, some of whom are graduates of our own University.

One of these is Dr. Charles A. H. Wright, who is taking the place of Dr. Archibald as Lecturer in Chemistry. He took his B.A., B.Sc. and M.Sc. from British Columbia, and his Ph.D. from McGill University.

Besides Dr. Wright there have been appointed to the Chemistry Department four assistants, all graduates of our own University. These are Mr. J. S. Huggett, B.A.Sc.; Mr. Swanzy Reck, B.A.Sc.; Mr. Gill, B.A.; and Mr. R. N. Crozier, B.A.

Mr. Huntley M. Sinclair, who took his degree of B.A. and M.A. from Edinburgh, has been appointed to the Economics Department to take the place of Professor Beckett, who has been granted leave of absence.

To the English Department has been appointed Miss Sallee Murphy, another B. C. graduate, who has taken her degree of M.A. from Toronto University. Miss Murphy was well-known here as a member of the Class of '23.

An addition has also been made to the Mathematics Department in the person of Dr. S. S. Dederick, who took his A.B. from Kenyon University and his A.M. and Ph.D. from Harvard. He has lectured at Princeton, and also at the United States Naval Academy at Annapolis.

Mr. Chodat, who has been appointed to the French Department, lectured here a few years ago. He has for the past few years taught at the King Edward High School. He has been appointed to take the place of the late Professor Grojean.

Mr. G. J. Spencer, B.Sc., M.Sc., has been appointed Assistant Professor in Zoology. He is a graduate of Toronto University, and has done extensive research work in Ontario.

TENNIS TOURNAMENT

The Tennis Club is planning to hold the annual tennis tournament, starting Monday, September 29th. It is hoped that the Laurel courts can be used, as in other years. Judging from the entries already received, interest is keen this year, and a record tournament is expected. There will be the usual five events: men's and women's singles, and doubles, and mixed doubles. An entry fee of 50 cents for a single event, or \$1.00 for two or more, is charged to cover expenses. Entries, together with the necessary fees, should be given in to members of the executive or in the Main Hall at noon on Friday.

Our Vital Statistics

Admission regulations are being enforced this year, with the result that a few Freshmen will be denied entrance to the College, it has been announced by Stanley W. Mathews, Registrar. Mr. Mathews stated that the last figures available for the registration included 581 Freshies in Arts. This may be cut within a few days.

The latest registration figures, released by Mr. Mathews, are:—

Faculty of Arts.	
First Year	581
Second Year	216
Third Year	149
Fourth Year	132

Total 1078

Faculty of Applied Science.

WOMEN'S SWIMMING CLUB.

The Executive of the Women's Swimming Club wishes to announce that classes in life-saving will be held this winter, in addition to the regular programme of the Club. Instruction will be given in the best methods of rescue of the drowning, and resuscitation of the apparently drowned, as taught by the Royal Life-saving Society. The diplomas and medals of the Society will be awarded for proficiency.

It is hoped that all who join the Club will avail themselves of the opportunity of such classes. About a hundred tickets will be issued. For further information watch the Sign-board upstairs.
