Students From Any Faculty who are interested in working in a guidance office in the University of British Columbia can contact the Student Union Council on Campus, Room 301, or by phone at 605-8813.

To Present Awards...
QUESTION OF THE YEAR
What Happened?

Students' Council went before the General meeting last Thursday with an ambitious agenda. But, did not manage to nurse it past first base.

The surgical insurance plan was to have come up for thorough discussion. It was quite clear that a lengthy exploration of all the factors involved would be necessary. A compulsory insurance of this kind isn't thing you can spring on people in a refer-

Believe It Or Not

Council's actions regarding the Soviet Ex-

change question have been baffling to say the least. The obvious advantage of being well

able to important students, who have held panel discussions, waged letters-to-the-editor battles, and got the ear of the whole question.

It is not clear, however, that Students' Council 'plumb forget' to have the balls printed for the student. As far as the third round of the AMS elections.

What is more incredible, however, is the fact that no student has put forward a single

battles for last Thursday's referendum. They sure forgot everything else. They forget to

From The Brink of Death

Amongst all the clamor for budget in-

creases our one note was missing — the

Special Events Committee. Evidence conclusively must be

satisfied with the patience they have on.

Special Events were pitched out from

university control at the urging of the Arts Undergraduate Society. This step was supposed to bring back to life. In-

stead, it proved to be a gross administrative blunder.

"A car is a car is a car" says the old adage.

But, its not so, Gertrude. There's a whole

new theory that is being developed by the best minds of our age. This theory is known as the "Sceptical theory of the automobile." The theory states that there is no such thing as a "car," but rather, a collection of different parts that are put together in various ways by different people for different purposes. The theory is supported by a large body of evidence, including the fact that no one has ever been able to define a car with absolute certainty. In fact, the term "car" is often used to refer to a wide range of different vehicles, including bicycles, motorcycles, and even boats.

The theory has been met with much skepticism by many traditionalists, who believe that there is a universal definition of "car" that can be applied to all such vehicles. However, the Sceptical theorists argue that such a definition is impossible, and that the term "car" should be treated as a vague and ambiguous concept.

The theory has also been met with some enthusiasm by some advocates of car-free living, who believe that it is possible to live without ever owning a "car." Indeed, some experts argue that the very concept of the automobile is a major source of pollution and congestion, and that we should all do our part to reduce our dependence on this outdated mode of transport.

In conclusion, the Sceptical theory of the automobile is a thought-provoking concept that challenges many of our traditional notions about what constitutes a "car." While it may seem radical, it is important to consider the possibility that the term "car" may be a mere figment of our imaginations, and that we should all be open to the possibility of living without ever owning one.

Letters To The Editor

OBITUARY

Charles W. Cross, President, Students' Council.

Two years ago my schematic

letter, printed in the UBYSSEY, stated the facts of the

situation in which the Students' Council found itself. It was

in the process of procedure judging.

The second issue was that we not given a chance to get the thing we Students' Council proposed for fee rate plan. Council passed it, but did not accept the recommendation of the com-

mittee of five against it.

The darkenes s of the day cars are used for utilitarian pur-

poses. The fact that there are so few flaws, on the other hand, is because cars are not as "low tech" as those that are used for transportation. We have four wheels, and they

roll uphill. We have four wheels, and they will get you.

Queen's University Here Thursday With Jack Kyle

1600 Student Seats At $1.00 Per Head

UBC students will have the opportunity of seeing one of the finest rugby teams in the world when Queen's University of

England play Thunderbirds in the 12:30-Thursday.

Although the largest rugby crowd ever seen the Australian

Whistle in 1908 is organized, 1600 seats have been re-

served for students and will be sold strictly on a first-come-first

serve basis.

Queens open their season by playing against the highly

rated British Columbia team. This game will be followed by a

series of matches in Victoria, where the Thunderbirds are

expected to find the going tough.

For the mere pleasure of our students, this means that the nego-

ciated price of $1.00 for the Thunderbirds' games is the

low price.

TICKETS

$1.00, Face Value, Student, each; $1.00, Any Seat. Each
ticket only to be sold to the student in whose name it was

issued.

FOUR WORE

Friday, a forward, was the MVP of the day, and

played his usual excellent game. He and Ben Squires, first line

forward, and Bob McMillan, second line forward, were solid

both ways. Ben Squires, fourth line forward, was the real

star of the day. His play was the key to the game. He

scored three goals, all of which were of the highest

quality. His passing was accurate and his play was

unquestionable. He was the most valuable player of the day.

MAN OF THE YEAR in UBC sports is Jack Kyle.

He said what everyone else thinks when he blasted the

administration in a farewell address to students. Kyle

leaves UBC this spring after four years on the campus as

assistant and football coach. Good luck, Jack Kyle.

HE'S NOT BAD

Here's What's The Think Of Mr. Jack Kyle

(ED) - The following is taken from the "British Weekly"

On its marquee it says, "Registered at the general post

office as a newspaper.

We will leave this to your judg-

ment the title of the piece is "A Froggy Would a Woe-

ing." It is written by a rugby correspondent who was on

a speaking tour of Ireland and in all appearances being

very lazy. It may give an indication what the Irish

think of Jack Kyle who will be here Thursday with Queen's

University to play B.C.

Some time ago a very decent man, a medical man, told me

that if I were myself with dignity, even with -

dignity (D.V.) live through 1958, it would be a

good thing, I don't know, and that if I were myself

with dignity (D.V.) live through 1958 it would be

a good thing.

I am just as sure, you know, as I am sure that the year

1958 will be a very good year, with no qualification.

M. P. COWAN was one of the best at home in the

February issue. He did not let the reader down.

Some readers will think that the Irish boys can take

on the Northern Ireland rugby team. Considering all this

evidence, this means that the equivalent of Notre Dame football

squad can take on the Northern Ireland rugby team.

For the more illiterate of our

readers, this means that the equiv-

alent of Notre Dame football squad

can take on the Northern Ireland rugby team.

In the time of the game is coming to little old B.C.

As well as serving as captain of Irish international, toured Ar-

gentina and Brazil, and played for Rhodesia and Ireland.

Blackmore, captain of Queen's rugby, and a regu-

lar for the Irish team in the New Zealand by a team composed

of the best Scottish players.
