Fonds Description

Office of Budget and Planning fonds. – 1952-2003; (predominant 1961-1984).
5.16 m of textual material.

Administrative History

The Office of Budget and Planning was established, as Budget, Planning, and Systems Management, in October 1984; the name was shortened to its current form in 1990. It succeeded Budget, Analysis, and Planning, which had superseded Institutional Analysis and Planning, which in turn had succeeded the Office of Academic Planning, dating back to 1961. The Office and its predecessors were formerly responsible for helping design new campus buildings, and planning the allocation of office, classroom, and storage space; however, that function was transferred to Physical Planning and Development (now Campus Planning and Development) in 1988. From 1976 to 1978 it provided information to the University's Anti- Inflation Board to monitor or control salary levels. Some of its staff have served on the British Columbia Post-Secondary Education Enrollment Forecasting Committee (BCFC), an inter-institutional body based at UBC. The Office's current functions are to formulate, maintain, and monitor the General Purpose Operating Budget and the University Development Fund; provide information to the President's office, the Board of Governors, Senate, and other University bodies and individuals; publish the annual Budget and Planning Narrative, the University Fact Book, and other reports; and provide information, through the President's Office, to the provincial government and other external agencies and individuals.

Scope and Content

The fonds consists of correspondence, reports (both published and unpublished), statistics, written notes, and minutes. Some records pre-date the establishment of the original Office of Academic Planning. The fonds also includes records of the Anti-Inflation Board, and reports issued by BCFC. It is arranged in 6 series: Subject Files (1975-89), Student Statistics Reports (1952-85), Institutional Analysis and Planning Reports (1974-84), Budget Analyses (1976-83), Anti-Inflation Board (1976-78), BCFC Reports (1972-84), and Budgets (1961-2003). Most files from the Subject Files series have, on the folders, initials corresponding to either the name of the office where they opened (IAP, BAP, or BPSM) or the name of former director William L. Tetlow (WLT); these initials were retained as part of the file title.

Notes

Fonds consists of institutional records – access requests must be reviewed by the University's FOIPOP Coordinator.

File list available.

Previously known as Office of Budget, Planning, and Systems Management fonds.

Acquired in several stages. The first four accessions were acquired in February, April, and September 1988, and September 1993. Documents in the Budget series were transferred to the Archives from the President's Office in January 2011.

The records of the Office's predecessor, [Institutional Analysis and Planning](#), are described separately. Other related records may also be found in the fonds of [Campus Planning and Development](#), [Physical Plant](#), and the [Department of Facilities Planning](#).
