Fonds Description

Douglas Harold Copp fonds. - 1908-2000; predominant 1968-1998
2.42 m textual records and other materials.

Biographical Sketch

Harold Copp was born in Toronto, Ontario on January 16, 1915 to parents Charles and Edith (O'Hara) Copp. After beginning post-secondary studies in physics and chemistry at the University of Toronto, his family was struck by tragedy when his older brother was killed by a burglar in the family home. Copp, decided to pursue the same subject his brother had been studying before his death, and transferred his interests to medicine. He completed both an MD (University of Toronto) and a doctorate in biochemistry (University of California at Berkeley). After graduating in 1943, Copp was recruited to work on the Manhattan Project, where he and his team focused on the impact of radiation on bone marrow in humans. He remained at Berkeley as an instructor after the end of World War II, maintaining his interest in bone metabolism. Copp returned to Canada in 1950, joining the faculty of the University of British Columbia as the first Head of the Department of Physiology. In 1961, he discovered a previously unrecognized hormone that aided in calcium regulation, which he called Calcitonin. It is this discovery that he is most well known for, and Calcitonin quickly become important in the treatment of osteoporosis, Paget's disease, rheumatoid arthritis and hypercalcaemia. Although officially retiring in 1980, he maintained his laboratory at UBC until 1993.

Copp received many honours and awards for his achievements throughout the years. Examples include the Jacob Biely Research Prize, the Gairdner Award, the Flavelle medal, and honorary doctorates from Acadia University, the University of Ottawa, University of Toronto, Queen's University and UBC. He was a Fellow of the Royal Society and the Royal Society of Canada, and an Officer of the Order of Canada. He was inducted as a charter member into the Canadian Medical Hall of Fame in 1994, and was also posthumously inducted into the Canadian Science and Engineering Hall of Fame in 2000. In addition, Copp held many professional offices, including that of President of the Canadian Physiological Society, President of the Faculty Association of UBC, President of the National Cancer Institute of Canada, and President of the Academy of Science, Royal Society of Canada. Harold Copp married Winnifred Thompson on July 15, 1939 and over the years the couple had three daughters, Mary, Carolyn and Pat. He died on March 17, 1998.

Scope and Content

Fonds consists of textual and photographic materials primarily related to Copp's academic career and research, although a small amount of personal records are included. The fonds has been arranged into nineteen series: Academic Visits and Visiting Professorships Series, Associations and Memberships Series, Calcitonin Series, Colleagues and Personnel Series, Conferences, Symposia and Workshops Series, Correspondence Series, Curriculum Vita and Professional Biography Series, Financial Records Series, Honours and Awards Series, Lectures Series, Media Series, Medical Research Council Series, Osteoporosis Series, Personal Series, Photograph Series, Publications Series, Recommendations and References Series, Research Series, and UBC Department of Physiology Series.

Notes

Materials were donated to the University of British Columbia Archives by Copps' daughter Patty Montpellier.

Title based on provenance of fonds.

Includes 143 photographs, 13 Audio Cassettes, 2 VHS Tapes, and 3 books.

File list available.

Access to some files restricted.

Series Descriptions

Academic Visits and Visiting Professorships Series. - 1966-1977.

3.5 cm of textual records

1 photograph.

Series consists of information regarding visits that Copp made to various national and international academic institutions throughout the world. In particular, most of the records relate to the medical schools, medical centres or hospitals at these academic institutions. Series also consists of documents detailing visiting professor positions that Copp held. Files are arranged chronologically.

Boxes 1 (1-8), 10 (1)

Associations and Memberships Series. - 1966-1997.

4 cm of textual records.

Series consists of records relating to professional associations in which Copp was a member. These associations are national and international in scope. Files are arranged chronologically.

Box 1 (9-18)

Audio Cassette and Videotape Series. - 1971-2000.

13 Audio Cassettes.

2 VHS Tapes.

Series consists of videotape and audiotape recordings. The audio cassettes are primarily recording of conferences and other medical/physiological lectures. The videotapes are of Copp's induction into the Order of Canada and a lecture about his life given in 1997.

Calcitonin Series. - 1949-1995.

9 cm of textual records.

Series consists of information regarding Copp's discovery of Calcitonin, including the history of the hormone's discovery and its uses, information about pharmaceutical production of the hormone, scholarly articles, literature updates, and correspondence. Files are arranged broadly by topic, and then chronologically.

Box 1 (19-27)

Colleagues and Personnel Series. - 1958-1997.

16 cm of textual records.

Series consists of records relating to people who worked for and with Copp in the Department of Physiology at the University of British Columbia, and other colleagues from across Canada and the world. Types of materials include correspondence, lecture and presentation notes, article outlines and drafts, work and research plans, and resumes. Files are arranged alphabetically by last name.

Box 1 (28-46)

Conferences, Symposia and Workshops Series. - 1950-1998.

54 cm of textual records.

4 photographs.

Series consists of information regarding Copp's extensive attendance of professional conferences, symposia and workshops, and includes correspondence, travel arrangements, conference programs and proceedings, invitations and event tickets, drafts and final papers presented, notes and other materials. Files are arranged in chronological order.

Boxes 2, 3 (1-19), 10 (2-19)

Correspondence Series. - 1953-1997.

24 cm of textual records.

Series consists of general professional correspondence and correspondence between Copp and specific colleagues and other individuals. General correspondence is arranged alphabetically, while correspondence relating to particular people is arranged alphabetically by last name.

Boxes 3(27-77), 10 (20-22)

Curriculum Vitae and Professional Biography Series. - 1964-1997.

7 cm of textual records.

1 photograph.

Series consists of biographical information about Copp's career, including bibliographies, chronologies of professional events, entries in various biographical publications and versions of his curriculum vitae. Files are arranged broadly by topic, and then chronologically.

Boxes 3 (20-26), 10(23)

Financial Records Series. - 1979-1996.

2.5 cm of textual records.

Series consists primarily of travel claims, although other records include library fines and other financial statements. Files are arranged by topic, and then chronologically.

Boxes 4 (1-8), 10 (24-25)

Honours and Awards Series. - 1957-1997.

15.5 cm of textual records.

Series consists of records relating to the honours and awards Copp received throughout the course of his professional career, and include certificates, diplomas, degrees, letters of commendation and plaques. Files are arranged alphabetically by name of award. A number of items are oversize and stored in a flat oversize box.

Boxes 4 (9-24), 7 oversize (9-14), 8 (1-9), 9 oversize (1-4)

Lectures Series. - 1943-1997; predominant 1968-1971, 1997.

8 cm of textual records.

10 photographs, 22 slides.

Series consists of records relating to various lectures that Copp presented, including classroom lectures at the University of British Columbia, lectures at other North American universities, lectures to colleagues, and information about the Annual Copp Lecture presented in his honour at UBC. Files are arranged alphabetically by name of award or award-granting institution.

Boxes 4 (25-37)

Media Series. - 1967-1997.

4 cm of textual records.

Series consists of records relating to appearances Copp made in various forms of media, in addition to media items about Calcitonin, calcium and osteoporosis. These include newspaper articles, broadcast media and film, and a biographical chapter for a book, written by David Suzuki, about Canadian scientists. Files are arranged chronologically.

Boxes 4 (38-46)

Medical Research Council Series. - 1959-1997; predominant 1980-1994.

3 cm textual records.

Series consists of grant applications and reports to and from the Medical Research Council. Files are arranged chronologically.

Boxes 4 (47-54)

Osteoporosis Series. - 1965-1997; predominant 1989-1996.

38 cm of textual records.

150 colour slides.

Series consists of information regarding Copp's work with osteoporosis and his involvement with numerous societies and associations related to that disease. Materials include correspondence, newsletters, flyers, pamphlets, announcements, handbooks, manuals, slides and scholarly articles. Files are arranged broadly by topic and then chronologically.

Boxes 4 (55-66), 5 (1-24), 8 (10-12), 10 (29-33)

Personal Series. - 1954-1997; predominant 1990-1997.

7 cm of textual records.

Series consists of records relating to Copp's personal life, and include correspondence, financial records, postcards, cards, anniversary arrangements, calendars, and other materials. Files are arranged chronologically.

Boxes 5 (25-30), 7 oversize (15-17), 8 (13), 10 (34-36)

Photograph Series. - [1949-199-?].

105 photographs, 2 slides.

Series consists primarily of photographs of Harold Copp, taken at conferences and speaking engagements, in laboratories and at UBC. Candid, posed and professional shots are included. Series also consists of photographs of colleagues of Copp, and buildings at UBC. Photographs are arranged broadly by topic.

Boxes 6 (47-48), 7 (5 oversize items)

Publications Series. - 1908-1998; predominant 1950-1998.

22 cm of textual records.

Series consists of printed materials and scholarly articles authored or coauthored by Copp and his colleagues, and other articles related to his research interests. Also included is correspondence regarding the publishing of some of these articles, and correspondence between Copp and several professional journals. Files are arranged broadly by topic and then chronologically.

Boxes 5 (31-52), 6 (1), 10 (40-43)

Recommendations and References Series. - 1948-1997.

7.5 cm of textual records.

Series consists of correspondence to and from Copp regarding references and recommendations he made for colleagues and students. This includes academic and professional references, and recommendations for awards such as the Nobel Prize. Files are primarily arranged alphabetically.

Access restricted.

Boxes 6 (2-12), 10 (37)

Research Series. - 1950-1994; predominant 1980-1990.

9.5 cm of textual records.

Series consists of records relating to Copp's research, and includes correspondence, information about research stations on Vancouver Island, notes and observations, research plans, scholarly articles and funding information. Files are arranged broadly by topic and then chronologically.

Box 6 (13-37), 10 (38)

UBC Department of Physiology Series. - 1950-1998.

6.5 cm of textual records.

Series consists of records relating mainly to Copp's time as head of the Department of Physiology at UBC, and includes histories of the department, research into other departments of physiology, minutes and meeting information from the UBC Faculty Association and other committees, information about UBC computer systems, and academic reports. Files are arranged broadly by topic and then chronologically.

Box 6 (38-46), 10 (39)
