Fonds Description

Department of Facilities Planning fonds. – 1967-1983.

32.5 cm of textual records.

1670 photographs : 35mm slides.

Administrative History

The Department of Facilities Planning was created in 1979 in response to growing concerns over campus development. Since then a new campus plan has been approved by the Board of Governors and many related planning and urban design studies have been prepared and implemented. The Department was responsible for maintenance of the campus, planning activities and the creation and development of major capital projects through the use of facility planning studies, design development drawings and the writing of functional programs. The Department merged with Physical Planning and Development in 1988.

Scope and Content

Fonds consists of feasibility studies, functional programs, proposals, and campus plans (1970-1982). They are arranged in five series: UBC Facilities (1969-1982), Feasibility Studies (1967-1980), Functional Programs (1978-1979), Proposals (1979-1983), and Slides. Many materials pre-date the creation of the Department. Two oversize items are stored separately.

Notes

Fonds consists of institutional records – access requests must be reviewed by the University's FOIPOP Coordinator.
