Fonds Description

Walter Hardwick fonds. – 1946-1998.

3.7 m of textual records.

7 black-and-white photographs.

7 video tapes.

Biographical Sketch

Walter Gordon Hardwick was born in 1932, and beginning in 1950 attended UBC, the University of Wisconsin, and the University of Minnesota. He first joined UBC's Department of Geography in 1960, and until his retirement in 1997 taught courses in urban studies, urban geography, and political geography. He also headed the "Vancouver Urban Futures" survey project from 1971 to 1974, and a second related project called "Choosing Our Future" in the late 1980's – these projects served as a basis for urban planning in the Greater Vancouver Regional District and inspired the district's "Livable Region" strategy.

Hardwick also had an acute interest in political processes, focusing on urban and regional planning and on education. He was instrumental in writing the 1963 "MacDonald Report", UBC President John B. MacDonald's report on post-secondary education which laid the groundwork for Simon Fraser University and the province's network of community colleges. He was also a key figure in the grassroots movement to prevent the construction of a freeway system through Vancouver which would have destroyed the historic areas of Gastown and Chinatown. He was a co-founder of TEAM (The Electors' Action Movement), and served on city council from 1969 to 1974. During his time on council Hardwick initiated the transformation of the south shore of False Creek from industrial use to housing, which he had advocated as early as 1962. He later served as B.C.'s deputy minister for education, science and technology from 1976 to 1980, and was responsible for establishing the Open Learning Institute and the Knowledge Network, serving as chair of the latter from 1980 to 1988. In these positions he was instrumental in establishing the province's distance education system. He also headed an environmental inquiry into a waste processing plant proposed for Sumas in 1992.

Walter Hardwick was honoured several times for his work, most notably with the Order of British Columbia in 1997, and with an honorary degree from UBC in 2000. he died in 2005.

Scope and Content

The fonds primarily consists of textual records, including correspondence, reports, minutes, and published materials which together document Walter Hardwick's political and academic careers. They are arranged in series and sub-series based largely on his areas of activity and interest. The series are Urban Planning, Urban Planning Publications, Vancouver City Council, Open Learning Agency / Knowledge Network, Ministry of Education, Vancouver Urban Futures Project, Sumas Waste Processing Plant Environmental Review, Personal Papers, Essays, Reports and Reprints, and Subject Files. Photographs of architects' models for False Creek and Granville Island are also included. The fonds also includes four **videotapes**, consisting mainly of interview footage.

Notes

Inventory available.

Acquired in two accessions. The first, consisting of the bulk of the fonds, was acquired directly from Dr. Walter Hardwick in 1998; the second, consisting of some additional reports and essays, came from the UBC Department of Geography in 2001.

Series Descriptions

Urban Planning series. -- 1964-1990.

43 cm of textual records.

7 b&w photographs.

Series consists of records dealing with urban planning issues in the Greater Vancouver area, in particular transportation and the redevelopment of False Creek. It includes reports, correspondence, minutes, and published materials. It also includes photographs of architects' models for False Creek and Granville Island in file 1-6. The series is arranged in the sub-series False Creek, Transportation, and General.

Boxes 1-2.

Urban Planning Publications series. - 1946-1998.

1.28 m of textual records.

Series consists of published reports dealing with urban planning issues in the Greater Vancouver area, in particular transportation, urban development, and the redevelopment of False Creek. It is arranged in the sub-series False Creek, Other Development Projects, Transportation, and General.

Boxes 2-6.

Vancouver City Council series. - 1969-1975.

21 cm of textual records.

Series consists of records generated during Walter Hardwick's tenure as a Vancouver city alderman. It includes correspondence, reports, and committee minutes.

Box 6.

Open Learning Agency / Knowledge Network series. - 1980-1989.

27 cm of textual records.

Series consists of records generated during Walter Hardwick's involvement with the Open Learning Agency, and his tenure as chair of the Knowledge Network of the West (KNOW). It includes correspondence, reports, and minutes.

Box 7.

Ministry of Education series. - 1975-1988.

13 cm of textual records.

Series consists of records generated during Hardwick's tenure as provincial deputy minister of education. It includes correspondence and reports.

Boxes 7-8.

Vancouver Urban Futures Project series. - 1971-1974, 1989-1990.

30 cm of textual records.

Series consists of records generated during the 1971-74 "Vancouver Urban Futures Project" and the 1989-90 "Choosing Our Future" follow-up project, which were intended to determine the views of citizens on various urban development and lifestyle issues. It includes correspondence, reports, computer print-outs, and telephone survey questionnaires (draft versions, as well as both blank and completed forms) used in the surveys.

Boxes 8-9.

Sumas Waste Processing Plant Environmental Review series. - August 1992.

12 cm of textual records.

Series consists of records generated in the course of a federal environmental inquiry, headed by Hardwick, into a waste processing plant proposed for Sumas in the Fraser Valley in August 1992. It includes correspondence from local individuals and groups, reports, and materials distributed during a public meeting during the inquiry.

Box 9.

Personal Papers series. - 1958-1980.

39 cm of textual records.

Series consists of records that document Hardwick's political and educational activities but which he kept or acquired for his own personal interest. It includes personal correspondence, sketches and notes, newspaper clippings and other published materials, and course materials.

Boxes 9-10.

Essays, Reports and Reprints series. - 1959-1986.

50 cm of textual records.

Series consists of articles, essays, and other publications by Walter Hardwick.

Files in Boxes 12 and 13 were acquired from the Department of Georgraphy in 2001.

Boxes 10-11, 12-13.

Subject Files series. - 1967-1976.

28 cm of textual records.

Series consists of records created or acquired by Hardwick during his tenure on Vancouver City Council and arranged by him according to subject, and includes correspondence and reports.

Boxes 11-12.

VIDEOTAPES

- VT 856 "Vancouver Urban Issues"
 May 1972
 30 minutes - B&W – VHS
 Prepared by Ministry of State for Urban Affairs. Consists of interviews with both ordinary citizens and public figures (including Harry Rankin, Mike Harcourt, and Gary Bannerman) regarding urban issues such as transportation, civic government, housing, poverty, and crime, interspersed with shots of Vancouver street scenes and panoramas.

- VT 857 "Vancouver 2000 - Reel #1"
ca. 1985
50:46 minutes - colour – VHS
Consists of unedited footage of interviews with executives of consulting engineering company Swan-Wooster on the company's history, past and current initiatives, and "knowledge industries". Interviews conducted by Walter Hardwick and others. Also includes footage of Swan-Wooster staff at work.
- VT 858 "Vancouver 2000 - Reel #2"
ca. 1985
52:58 minutes - colour – VHS
Consists of unedited footage in two parts: 1. Interview with Walter Hardwick on the development of new industries, the effects of technology on society, the evolution and development of Vancouver, and possibilities for 2000; 2. Interview with management and staff of computer imaging company Vertico on the development of computer animation, possibilities for employment in that field, and possible applications in other industries by 2000.
- VT 859 "Vancouver 2000 - Reel #3"
ca. 1985
59:07 minutes - colour – VHS
Consists of unedited footage in two parts: 1. Technicians at Vertico working on computer graphics and animation; 2. Interview with futurist Frank Ogden, including a demonstration of communications technology on his houseboat, and a discussion of potential technological and medical advances and the resulting social changes.
- VT 860 "Vancouver 2000 - Reel #4"
ca. 1985
60:06 minutes - colour – VHS
Consists of unedited footage in five parts: 1. Interview with Frank Ogden on future technological change and its effects on education, on the development of Vancouver, and on the economy and society in general; 2. Interview with freelance composers Miles Ramsey and Brian Gibson on the future of the music business in Vancouver; 3. Footage of Walter Hardwick doing off-camera voice-overs for previous interview; 4. Footage of fashion designer at work; 5. Street interviews with Chinese immigrants about their experiences in Vancouver, for a CKVU-13 "Vancouver Show" episode on the Chinese-Canadian community.

- VT 861 "Vancouver 2000 - Laurence Moss interview"
ca. 1985
47:15 minutes - colour – VHS
Consists of unedited interview footage of Dr. Laurence Moss, futures analyst and development planner, on the future business environment in British Columbia and Vancouver.
- VT 862 "Vancouver 2000 - Edit Master Dubs"
ca. 1984
3 6:56 minutes - colour – VHS
Consists of unedited footage of interview conducted by Walter Hardwick with the head of satellite telecommunications company Microtel, on current and future technological and economic developments. Also includes footage of company technicians and equipment.
