Fonds Description

Stuart J. Schofield fonds. – 1905-1952; predominant 1905-1948.

19 cm of textual records.

173 photographs.

1 scrapbook.

18 maps.

Biographical Sketch

Stuart Schofield was born in Kent, England. After moving to Kingston, Ontario as a child, he completed his B.A. (1904), M.A. (1906), and B.Sc. (1908) at Queen's University. He later completed a Ph.D. at M.I.T. (1912). He began his geological career with the Geological Survey of Canada as a student assistant to R.W. Brock in 1906. In 1915, Schofield accepted Brock's invitation to start courses in Geology and Mineralogy at the newly-established University of British Columbia. He was appointed professor of Structural Geography at the university in 1920. After accepting responsibility for making a geological survey of Hong Kong in 1906, Brock sent Schofield to undertake a general reconnaissance for six months. Ill health forced Schofield to retire from UBC in 1940; he died in Vancouver in 1947.

Scope and Content

Fonds consists of correspondence (1914-1945), journal offprints (1914-1922), manuscripts, minutes, reports, notes, diaries, clippings, army memorabilia, maps, photographs and biographical information pertaining to Schofield's personal and professional life.

Notes

File list available.

Some restrictions may apply.

Selected photographs have been digitized and included in UBC Archives' [Historical Photograph Database](#) (UBC 22.1).

Series Descriptions

Personal series. – 1905-1948.

6 cm of textual records. 1 scrapbook.

Series consists of biographical material, notebooks, diaries, clippings, a songbook, periodicals, army insignia, illustrations, postcards, and a scrapbook pertaining to Schofield's personal life, including his service in World War I.

Some restrictions may apply.

Correspondence series. – 1914-1945.

4 cm of textual records.

Offprints series. – 1914-1922.

6 cm of textual records.

Series consists of offprints of published works by Schofield. Series includes an offprint by A.W. Grabeau, *The Sinian system*.

UBC series. – 1929.

1 cm of textual records.

Series consists of minutes of a meeting of the UBC Library Committee and notes relating to maps of UBC. Series contains two subseries: Minutes and Notes subseries.

Reports series. – 1910-1935.

1 folder of textual records.

Series consists of geological reports.

Manuscripts series. – 1941-1952.

2 cm of textual records.

Series consists of various manuscripts written by Schofield.

Photographs series. – 1907-1933.

173 photographs.

Series consists of photographs pertaining to a trip to China, scenery and mining in B.C., and miscellaneous portraits.

Selected photographs have been digitized and included in UBC Archives' [Historical Photograph Database](#) (UBC 22.1)..

Maps series. – 1915-1942.

18 maps.

Series consists of assorted maps, plans, and sketches pertaining to geological sites.
