# Collection Description

**Agricultural Engineering and Farm Building Collection / Leonard Staley (collector).** – 1953-1976.

60 cm of textual records.

## **Collector's Biographical Sketch**

Leonard M. Staley received a B.Sc. from the University of British Columbia in 1951. Upon completion of his M.Sc. at the University of California, he taught agricultural engineering at the Ontario Agricultural College. He returned to UBC as an assistant professor of Agricultural Mechanics in 1956. In 1981, he became head of both the Department of Bio-Resource Engineering and the Department of Agricultural Mechanics. Among the committees of which Staley was a member were the Farm Building Standards Committee and the National Committee on Agricultural Engineering.

## **Scope and Content**

The collection consists of minutes, correspondence and reports arising from two committees on which Staley sat, the Farm Building Standards Committee and the National Committee on Agricultural Engineering. The former was established in the early 1960s as a standing committee which contributed to the development of the National Building Code of Canada.

## **Note**

File list available.

## Series Descriptions

**Farm Building Standards Committee.** – 1960-1976.

37 cm of textual records.

Series consists of correspondence, reports, minutes and printed material.

**National Committee on Agricultural Engineering.** – 1953-1971.

23 cm of textual records.

Series consists of reports, correspondence and printed material.
