DESCRIPTIVE INTRODUCTION

This five-year index, Volumes 21-25 (1988-1992), to the *British Columbia Historical News* continues the previous index to Volumes 11-20 (1977-1987). It is arranged in one alphabet by Author, Title and Subject. Some "see" references are included to lead from subjects not used to those which are used.

Book Reviews are listed alphabetically after the main index by the author of the book being reviewed. There is also a final section which includes those books listed but not reviewed.

All Authors' surnames and Subjects are capitalized. If, however, the author's name appears in a subject entry or a title, it is in lower case.

The citation information is as follows: 25:3 (1992): 10-13.* This is interpreted as: volume, issue number, date, page(s). When an asterisk appears after the pagination, the article is illustrated. There is no separate illustration listing except for those illustrations which have appeared on the covers. These may be found under the subject: ILLUSTRATIONS, COVER.
