Senate fonds. – 1912-2010.
18.18 m of textual records.

Administrative History

The University of British Columbia Senate was created under the terms of the British Columbia *University Act* of 1908. The first meeting of Senate was held in 1915. Duties and powers of the Senate, as established by the Act and subsequent amendments, pertain to the academic governance of the University. Senate is responsible for managing the curriculum, instruction, and education offered by the University. Senate addresses questions relating to the qualifications required of applicants for admission to the University or any faculty. Other responsibilities include the provision and granting of degrees, including honorary degrees; making recommendations to the Board of Governors (responsible for the University's administrative and business affairs) regarding the establishment or discontinuance of any faculty, department, or course of instruction; the awarding of fellowships, scholarships, bursaries and prizes; the making of rules and regulations for the management and conduct of the library; and the publication of the University Calendar.

The Senate is composed of appointed and elected persons. The President of the University acts as Chair of Senate and the Registrar as Secretary. Other ex-officio members include the Chancellor, the Librarian, the Academic Vice-President and the deans of the faculties. The actual work of Senate is accomplished through appointed committees which present reports which are considered by Senate as a whole and accepted, amended or rejected.
