Fonds Description

Edgar Wickberg fonds. – 1952-1997.

3.62 m of textual records.

8 boxes of file cards.

Biographical Sketch

Edgar Wickberg was a professor of history at UBC from 1969 to 1992. Born in Oklahoma, he served in the U.S. Army before earning a BA and an MA in history from the University of Oklahoma. In the 1950's he studied Chinese and Japanese language and Asian history at the University of California (Berkeley), as well as studying the Chinese in the Philippines, and completed his PhD in 1961 with a thesis on modern Chinese history. Wickberg taught at the University of Kansas from 1960 to 1969, with extended periods of research in Taiwan. After joining the faculty of UBC he taught courses on modern China and modern Chinese economic and social history, and made several research trips to mainland China, mainly to Guangzhou (Canton), Nanjing (Nanking), and Hong Kong. In 1992, after his retirement, he was named Professor Emeritus at UBC.

Dr. Wickberg's main research interests were the history and current relationships of Chinese people outside China; land tenure systems in southern China since the 16th century; voluntary associations and ethnicity in Chinese society, and among overseas Chinese communities; and comparative histories of Chinese communities in Southeast Asia and North America. He also helped establish an exchange relationship between UBC and Guangzhou's Zhongshan University, and was a member of the Vancouver Chinatown Historic Area Planning Committee. He published a number of articles, and two books: *From China to Canada: A History of the Chinese Communities in Canada*, which he wrote in collaboration with four other researchers as well as edited (1982), and *The Chinese in Philippine Life* (1965). Dr. Wickberg died in 2008.

Scope and Content

The fonds consists of records which document Edgar Wickberg's research on Chinese land tenure systems and rural society, and the history of Chinese communities overseas. Materials include research notes, correspondence, computer printouts, newspaper and magazine clippings, photocopies of both archival documents and scholarly articles, and file cards and notes stored in file card boxes. The series are Land Tenure (divided into sub-series by region), Rural Localities in China, Chinese in Canada, Chinese in the United States, and File Cards.

Notes

File list available.

Acquired from Dr. Edgar Wickberg in several accruals. The bulk of the materials were transferred in February 1998 and June 2001. Records of the Chinatown Historic Area Planning Committee were added in June 2005.

The original series in which Wickberg organized the materials have been retained, as has most of the physical arrangement of the files within those series.

Many of the research notes, clippings, and photocopied documents and articles are written in Chinese. Some other photocopied documents and articles are written in Japanese. Old file folders on which titles have been written in Chinese characters have been retained.

A brief description of the records written by Dr. Wickberg, discussing his various research projects and the records associated with them, is available in the University Archives.

Related records may be found in the [Chinese-Canadian Research Collection](#).

Some books, microfilm, and maps which were originally included with the records have been transferred to UBC's Asian Library and Map Library.

Series Descriptions

Land Tenure series. – 1952-1992.

1.88 m of textual records.

Series consists of records which document Edgar Wickberg's research on historical land tenure and rural society in China, and includes research notes, correspondence, computer printouts, and photocopies of both archival documents and scholarly articles. It is organised in the following sub-series, based mainly on the regions or provinces in China on which Wickberg concentrated his research: China - General; Anhui; Hong Kong, New Territories, & Guangdong (Qing period); Lower Yangtze River; South China; and Taiwan.

The original series in which Wickberg organized the materials have been retained, as has most of the physical arrangement of the files within those series.
