

Description: These records were donated to the Faculty of Medicine by Anne Ironside who obtained them from her father, Dr. Kincaid. The latter was Provincial Director of TB control from 1951-1971. These records were given to Dr. Kincaid by Dr. C.H. Vrooman (d. 1951), former Superintendent of Tranquille (until 1918) and former secretary of the Anti-Tuberculosis Society. The Society originally ran Tranquille; in 1921 the Province took it over and the Society was disbanded. The present Lung Association was not started until 1936.
